About the "Price" of this Album or How to Make a Difference

Professional recordings cost about \$.99 a song these days. Ok, so this is not professional. Still it's 16 tunes say...\$10.00 for the CD? I don't really need that money, but there are so many that could benefit from it. If you found anything here that "fed" you then make a donation to your local food bank or soup kitchen or to one of the groups I have listed at "Feed the Hungry".

Thanks!

Donna
